

MAXIMUS

THE HEAT OF THE CHAMPIONS

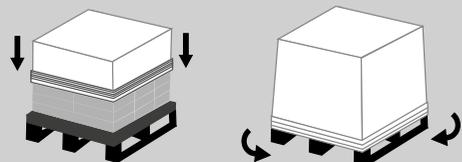

MAXIMUS

MAXIMUM HEATING POWER

- 1 ENplus A1 certified**
Strict external quality controls ensure consistent quality
- 2 High calorific value at a fair price**
≥ 4,8 kWh/kg for powerful heat
- 3 Light-coloured and low-dust pellets**
Clean handling and fewer disruptions during stove operation
- 4 Sustainable production**
Short transport routes and a low CO² footprint enabled by our in-house sawmill
- 5 Year-round supply security**
Raw materials from in-house production – independent and dependable

POWERFUL PACKAGING

A robust stretch hood protects against rain and dirt and allows for safe outdoor storage over several weeks.

APPROVED QUALITY

- First Slovak manufacturer certified according to ENplus A1 (SK 001)
- External quality monitoring by the Institute for Bioenergy (Vienna) and PCU Germany (Berlin)
- Daily internal quality control

MAXIMUS

PERFORMANCE

LENGTH	3,15 ≤ L ≤ 40 mm
DIAMETER	6 mm
NET CALORIFIC VALUE	≥ 4,8 kWh/kg
ASH	≤ 0,70 %
MOISTURE	≤ 10,0%
BULK DENSITY	600 ≤ BD ≤ 750 kg/m ³
MECHANICAL DURABILITY	≥ 98,5%
COLOR	bright
DUST	low
WOOD SPECIES	spruce

Laboratory analysis 2026: Values may vary slightly depending on production batch. Wood is a natural product, every tree grows uniquely.

UNITS

Bag
1 pc.
65 × 35 × 14 cm *
15 kg
* filled & lying down

Pallet

72 pcs.
120 × 90 cm
1.080 kg

Truck

22 pallets
13,6 m
23.760 kg

Big Pack

1 pc.
1.000 kg

LOCATION

- Polomka, Slovakia (EU member since 2004)
- 250 employees, 30 ha area
